## A/UX: sigwinch and /usr/ucb/vi.43

Article Created: 31 May 1988

### Article Change History

-----  
08/31/92 - REVIEWED

- For technical accuracy.

### TOPIC -----

All versions of A/UX: sigwinch and /usr/ucb/vi.43

### DISCUSSION -----

/usr/ucb/vi.43 is Berkeley-specific version of vi. /usr/bin/vi (A/UX default vi) is driven from AT&T SysV. /usr/ucb/vi.43 DOES support sigwinch (signal window change) and /usr/bin/vi DOES NOT.

If you wish to implement sigwinch, use vi.43 instead of vi.
