A/UX 3.0 Supports New Version of nawk (2/93)

Article Created: 4 February 1993

TOPIC ---

Where can I get nawk for A/UX 3.0?

DISCUSSION --

The version of 'awk' that comes with A/UX 3.0 was based on the new version
of awk (nawk) from AT&T ToolChest 1988-1989.

Actually the 'nawk' has been in A/UX since A/UX 2.0.1 release. A/UX,
however, still uses the name of 'awk' instead of 'nawk'.

To verify that we are using the new version of 'awk', search for the
built-in gsub from 'man awk' or 'strings /bin/awk', if it exists, it is
nawk. The old awk does not support the gsub function.
