A/UX: About the newunix Command (8/94)

Article Created: 11 October 1990
Article Reviewed/Updated: 22 August 1994

TOPIC --

What is newunix?

DISCUSSION ---

The newunix command begins the process of configuring a new kernel by installing
or uninstalling the appropriate scripts and driver object files needed by the
Autoconfig(1M) command.

The newunix command is replaced and updated by the newconfig command in A/UX 2.0
and 3.0.
