## ADB Mouse: Single click interpreted as multiple clicks

Article Created: 9 June 1987

Article Last Reviewed: 6 August 1992

Article Last Updated:

TOPIC -----

Sometimes when I make a single mouse click, my Macintosh SE interprets it as several mouse clicks. What's going on here?

DISCUSSION -----

If a single mouse click is interpreted by your Macintosh SE as multiple mouse clicks, the problem may be a bad micro switch in the ADB mouse. Try replacing the mouse on the offending system; the problem is most likely not being generated by software.
