Apple Writer III: Available Space

Apple Writer III (versions 1.0, 1.1 and 2.0) can edit files up to 65021 characters long at a time. This figure applies to both 128K and 256K Apple IIIs. Please note that as the file gets larger, the computer takes longer to process the typed characters. It isn't unusual for good typists to lose characters as the file grows.
