ABS Tech Note: ARA00 About ARA Technical Notes (11/94)

Article Created: 14 November 1994

TOPIC ---

This document accompanies each release of Apple Business Systems Technical
Notes.

DISCUSSION --

We want Technical Notes to be distributed as widely as possible, so they are
sent to all Partners and Associates at no charge; they are also posted on
AppleLink in the Developer Services Bulletin Board.

We place no restriction on copying Technical Notes, with the exception that you
cannot resell them, so read, enjoy and share. We hope Apple Business Systems
Technical Notes will provide you with lots of valuable information.

Technical notes are a 'living' complement to product documentation, be it Inside
Macintosh or other documentation. This means that they are updated on a regular
basis, so as to be accurate and up to date. New Notes are added as required.

This technical note is an index of all technical notes related to the AppleTalk
Remote Access and related products. It also documents all changes to the
technical notes since the previous release.
