ABS Tech Note: SNA•ps00 About SNA•ps Tech Notes (5/93)

Article Created: 24 May 1993

TOPIC --

This document accompanies each release of Enterprise Technical Notes.

DISCUSSION ---

We want Technical Notes to be distributed as widely as possible, so they
are sent to all Partners and Associates at no charge; they are also posted
on AppleLink in the Developer Services Bulletin Board.

We place no restriction on copying Technical Notes, with the exception that
you cannot resell them, so read, enjoy and share. We hope Enterprise
Technical Notes will provide you with lots of valuable information.

Technical notes are a 'living' complement to product documentation, be it
Inside Macintosh or other documentation. This means that they are updated
on a regular basis, so as to be accurate and up to date. New Notes are
added as required.

This technical note is an index of all technical notes related to the
SNA•ps and related products. It also documents all changes to the technical
notes since the previous release.
