## Third-Party Video Cards for the Macintosh Family

Article Created: 5 March 1991  
Article Last Reviewed: 9 June 1992  
Article Last Updated:

TOPIC -----

Do you know of any third-party video cards that work with the Macintosh Classic, Macintosh LC, and Macintosh IIsi?

DISCUSSION -----

Lapis Technology manufactures a line of video interface cards, called the DisplayServer series, for the Macintosh family, including the Macintosh Classic, Macintosh LC, and Macintosh IIsi.

RasterOps Corporation also makes a line of video cards for the Macintosh family, including the Macintosh Classic, Macintosh LC, and Macintosh IIsi.

These cards support both Apple and third-party monitors.

To locate a vendor's address and phone numbers, use the vendor name as a search string.
