## Macintosh LC 575: Description (3/95)

Article Created: 17 February 1994

Article Reviewed/Updated: 17 March 1995

TOPIC -----

This article describes the Apple Macintosh LC 575 computer. Note that, in the U.S., this model is sold only through educational channels.

DISCUSSION -----

### Overview

-----

The Apple Macintosh LC 575 is Apple's most powerful all-in-one computer. Its integrated design combines logic board and monitor in a single package with stereo speakers and a microphone.

With its fast 33 megahertz 68040 microprocessor, the Macintosh LC 575 performs at four times the speed of the Macintosh LC III. It supports up to 36 megabytes of memory and has 160 and 320 megabyte internal hard drive options. Apple's new internal CD-ROM drive is included with most models. This new drive features tray-loading, so you'll no longer need a CD caddy.

The Macintosh LC 575 is expandable with a LC-compatible processor-direct slot and a communications slot for Ethernet networking or a high-speed fax/data modem.

### Features

-----

#### Power and Speed

-----

- 33 megahertz 68LC040 microprocessor with 32-bit data bus
- 5 megabytes of RAM, expandable to 36 megabytes
- 512 kilobytes or 1 megabyte of VRAM for 8-bit color standard (optional 16-bit)
- Built-in double-speed, tray-loading CD-ROM drive (on most models)
- 160 and 320 megabyte hard disk drive options

#### Convenience

-----

- Features all-in-one design for easy setup and use

- Includes front-panel contrast and volume controls and a headphone jack, as well as a keyboard power on/off switch
- Conserves energy by reducing power consumption by more than 50 percent

#### Broad Expansion Capabilities

-----

- PowerPC upgradable when upgrade becomes available
- Comes with built-in ports to support a wide range of peripherals
- Features a Macintosh LC-compatible processor-direct slot
- Includes a communication slot for 14.4 KB fax/modem or Ethernet connection

#### Ordering Information

-----

Macintosh LC 575 4/160

Order No. M2618LL/B

- Macintosh LC 575 computer with 4MB of RAM, 512K of VRAM, built-in 1.4MB Apple SuperDrive, and internal 160 MB hard disk drive
- System software version 7.1
- Limited warranty

Macintosh LC 575 5/160

Order No. M2461LL/B

- Same as Order No. M2618LL/B, but with 5MB of RAM, 1MB of VRAM, and an internal CD-ROM drive

Macintosh LC 575 8/160

Order No. M1797LL/B

- Same as Order No. M2461LL/B, but with 8MB of RAM

#### Article Change History:

- 17 Mar 1995 - Corrected wording of PowerPC.
- 01 Dec 1994 - Removed mention of Macintosh LC 575 Upgrade.
