Performa: Deleting Items from the Directory (7/93)

Article Created: 19 July 1993

TOPIC ---

How do I delete items from the directory on my Performa 450? I dragged them to
the Trash and emptied the Trash, but they keep showing up.

DISCUSSION --

Depending on where they show up, this may be normal. If you use At Ease, going
to the Finder to delete an item will not delete it from At Ease. If you go
back into At Ease, the icon for the item is still on one of the panels.
However, if you click on the icon, a dialog box appears explaining that the
original item couldn't be found. The item will be removed from the At Ease
panel.

If the item is in the Launcher window, you will need to go into the Launcher
items folder located in the System folder and remove the alias for the item.
