## Performa 6400: ANSI C++ PPC Lib and MWRuntimeLib Files (8/96)

Article Created: 13 August 1996

TOPIC -----

On my Performa 6400 in the Extensions folder are two files, "ANSI C++ PPC Lib" and "MWRunTime.lib", neither of which have version, or copyright information. These files are also on the Macintosh Performa CD. I have not been able to locate these files on any other Macintosh computer, so I assume they are specific to the Performa 6400.

Which applications require these files?

DISCUSSION -----

The "ANSI C++ PPC Lib" and "MWRuntimeLib" are required Shared Libraries for the Apple Telecom and MegaPhone applications.
