## Macintosh Performa 5400/160 (non-US): Description (10/96)

Article Created: 24 October 1996

TOPIC -----

This article contains a description of the Macintosh Performa 5400/160 computer, which is only available outside of the United States.

DISCUSSION -----

With its state-of-the-art RISC-based processor and advanced multimedia capability, the all-in-one Macintosh Performa 5400/160 computer is ready to inspire your creativity and boost your productivity.

The computer's 160-megahertz PowerPC 603e processor and its 16 megabytes of RAM let you easily run an abundance of Macintosh applications--and there's plenty of room to store them on the 1.6-gigabyte internal hard drive. To get you started, there are more than a dozen learning, home, and entertainment programs, plus a collection of multimedia reference CDs.

The Performa 5400/160 includes a CD-ROM drive for multimedia applications and a 15-inch monitor (12.8-inch diagonal viewable image size) to display vibrant colors. There's also a built-in microphone to directly record your own sounds. Multimedia playback is made more lifelike through the built-in stereo speakers enhanced by SRS 3D surround sound and the Macintosh 16-bit stereo sound system.

To connect to the world of information services, including the Internet, the Performa 5400/160 features a built-in 28.8-kilobit-per-second modem. The modem also allows you to use your computer as a fax or answering machine.

If you need even more advanced capabilities in the future, expansion is easy through the industry-standard Peripheral Component Interconnect (PCI) slot and built-in SCSI support. You can also add the capabilities of watching television in a Macintosh window and recording video from VCRs and video cameras.

The Macintosh Performa 5400/160: A powerful, convenient system for all your home and office computing tasks.

### Features

=====

Complete, ready-to-use system

-----

\* Computer, multiple-scan 15-inch color display (12.8-inch diagonal viewable

image size), CD-ROM drive, floppy disk drive, hard disk, microphone, and stereo speakers integrated into one convenient package
