## Power Macintosh 9500/180 & 9500/200: Memory Configuration (8/96)

Article Created: 19 August 1996

TOPIC -----

What DIMM configurations will be included in the Power Macintosh 9500/180MP and 9500/200 that ship with 32 MB of memory?

DISCUSSION -----

Currently, Apple plans to install two 16 MB DIMMs in the Power Macintosh 9500/180MP and 9500/200 computers that ship with a total of 32 MB of memory. However, this configuration could change depending on memory availability and market conditions.
