## Writing & Publishing Tools: Author's Toolkit Dictionaries 12/96

Article Created: 2 December 1996

TOPIC -----

The Author's Toolkit, included on the Apple Education Series, Writing and Publishing Tools Backup CD (691-1214-A v1.1) does not install the dictionaries used by the application. The dictionaries cannot be custom installed or drag copied to the hard disk. When I choose Dictionaries from the Edit menu, I get an error message that states "Can't find the spelling dictionaries. Make sure that the folder "SCET Dictionaries" is in the Preferences Folder."

Why does this happen and where can I get these dictionaries?

DISCUSSION -----

The Apple Education Series - Writing and Publishing Tools CD installs a number of packages included with the Writing and Publishing Tools software bundle. The dictionaries were inadvertently left off the CD-ROM disc. The Author's Toolkit is specifically looking for a folder called "SCET Dictionaries" that includes the following dictionaries:

SCET Main Dictionary  
SCET User Dictionary

This folder should be placed in the Preference folder located in System Folder. You can obtain a copy of the dictionaries from Sunburst Communications, the developer of The Author's Toolkit. Sunburst can be reached at following addresses and phone numbers:

Sunburst Communications  
101 Castleton Street  
Pleasantville, NY 10570 U.S.A.
