## HyperCard: Disconnecting Modem After Dialing (10/92)

Article Created: 24 March 1992

Article Reviewed/Updated: 30 October 1992

TOPIC -----

The following line of HyperTalk will disconnect the modem after dialing:

```
dial "" with modem "ATH"
```

DISCUSSION -----

This string can be placed in a button and clicked on when the dialing is done. Another method is to use the Phone Dialer stack which shipped with HyperCard 2.1 and adjust when this command is sent on the Modem Options card.
