## Macintosh-to-Wang Connectivity

This article last reviewed: 11 November 1988

This article describes two Macintosh-to-Wang connectivity solutions.

Data Viz has three versions of MacLink Plus: VS, OIS, and WP. The VS and OIS are operating systems for midrange systems, and the WP is for a Wang PC. To use MacLink Plus VS, AllegroServer must be used on the host.

The M/H Group product, VSCOM, is essentially the same as MacLink Plus VS.

For more information, search on the above company names.
