              • To add availability information.

TOPIC ---

Is there an updated version of the Compatibility Checker to reflect
third-party upgrades and broader testing of existing products?

DISCUSSION --

There is a new version of the Compatibility Checker. Compatibility Checker
1.1 is now available. You can get it from AppleLink, Apple service
providers, and Users Groups. The System 7.0 upgrade kits now include it.

Compatibility Checker 1.1 has 165 new records, as well as updated
product compatibility information and corrected phone numbers. It also
offers compatibility information on third-party drivers.
