## System 7: How to See About the Finder Window

Article Created: 5 June 1991

### Article Change History

-----  
08/19/92 - RETITLED

- To be more specific.

### TOPIC -----

Where can I find the black-and-white picture with mountains and a moon in the Finder?

### DISCUSSION -----

In the Finder, hold down the Option key and choose "About the Finder..." from the Apple menu for the "About the Finder" window from early versions of Macintosh system software.

Hold down both the Option and Command keys while selecting this option, and the cursor displays an amusing shape.
