TOPIC --

What is the recommended System 7 upgrade strategy for groups of Macintosh
computers?

DISCUSSION ---

Apple's recommended upgrade strategy for groups of Macintosh computers is
contained in the System 7 Group Upgrade Guide. This guide is an integral
part of the System 7 Group Upgrade Kit. The kit contains all the tools and
necessary information on how to plan, implement, and manage a group
transition to System 7. This kit contains System 7 software and other
software on disks and on a CD-ROM.

Network administrators and users who support a group of Macintosh computers
should buy the System 7 Group Upgrade Kit (Order #M8221LL/A):
