## System 7: Disk Space Needed for Virtual Memory

Article Created: 7 March 1991

Article Last Reviewed:

Article Last Updated:

TOPIC -----

How much disk space do I need to use Virtual Memory?

DISCUSSION -----

While virtual memory (VM) is running, you may notice that a portion of your hard disk is allocated to VM. The amount of space used for virtual memory depends the amount of virtual memory you request.

For example:

Physical Memory available in Mac	Virtual Memory setting	Disk Space used by VM
4MB	8MB	8MB
8MB	13MB	13MB
