Retrospect: Content Unknown Error (8/93)

Article Created: 18 August 1993

TOPIC ---

What is a "Content Unknown" error in Retrospect?

DISCUSSION --

A "Content Unknown" error means that Retrospect can see data on your media,
but the data is not recognized as Retrospect-formatted data. For tapes, this
usually means that the tape was damaged or used by a different backup program.

For further information on working with Retrospect and Retrospect A/UX,
search the Tech Info Library by "Retrospect" or "Remote."
