Retrospect: Content Damaged Error (8/93)

```
Article Created: 18 August 1993

TOPIC -----------------------------------------------------------

What is the "Content Damaged" error in Retrospect?

DISCUSSION ------------------------------------------------------

The "Content Damaged" error message appears if you change the name of a disk
or cartridge that is part of a Disk StorageSet.

What to do: If you want to preserve this data, rename the disk to the original
name it was given by Retrospect. The original disk uses the format "1-The
StorageSet." If you do not want to save the data and want to use the disk for
other purposes, erase the disk using the Erase Disk command from the Special
menu in the Finder.

For further information on working with Retrospect and Retrospect A/UX,
search the Tech Info Library by "Retrospect" or "Remote."
