Retrospect: Error –54 (file busy/locked) (8/93)

Article Created: 18 August 1993

TOPIC ---

What is "Error –54 (file busy/locked)" in Retrospect?

DISCUSSION --

There are two causes for Error –54 (file busy/locked):

• You are trying to back up System files using System 7 file sharing
  or AppleShare.

• Another application, such as FileMaker or 4th Dimension, had the files
  open, preventing Retrospect from accessing them.

What to do: Back up the busy files from the local Macintosh, quit the
application that owns the busy file, or install Retrospect Remote and back
up the files.
