JAZZ: Transferring JAZZ Word Processing Documents to MacWrite

JAZZ Word Processing Documents can be transferred to MacWrite. This can be very important if you are writing a long document and begin to run out of memory in JAZZ. To move a JAZZ Word Processing Document into MacWrite choose Save As from your File menu in JAZZ and click on Text Only and then Save. This will save your document as text only, which MacWrite will be able to read. Just transfer the text only file from your JAZZ startup disk to the MacWrite disk and you will be able to open it.
Note: When saving a document as text only you will lose formatting.
