TOPIC ---

Is DesignCAD 2D/3D, from DesignCAD, Inc., compatible with system software
version 7.0?

DISCUSSION --

DesignCAD 2D/3D works with system software version 7.0 except on the
Macintosh Plus, Macintosh SE, and Macintosh Portable. On these Macintosh
models, DesignCAD 2D/3D fails to recognize the presence of 32-bit
QuickDraw, which is built into version 7.0, and gives the user a message to
install 32-bit QuickDraw.

At this time, there is no known workaround.
