Article Created: 4 January 1995

TOPIC -----

When typing in Microsoft Works 4.0 or 4.0a while at the same time listening to an audio CD the keyboard will display double characters. In other words, when you press a key once, two characters are displayed.

DISCUSSION -----

Microsoft is aware of this, and Microsoft Works version 4.0b should correct it. For more information contact Microsoft Corporation. To locate a vendor's address and phone number, use the vendor name as a search string.
