## QuickTime 1.6: Custom Install with CD-ROM Setup 4.0.2 (5/93)

Article Created: 7 May 1993

Article Reviewed/Updated: 16 June 1995

TOPIC -----

I want to use QuickTime 1.6. When I try to use the "Easy Install" feature of CD-ROM Setup software version 4.0.2., it prompts me for the QuickTime 1.5 diskette. Can you explain?

DISCUSSION -----

To use QuickTime 1.6 and avoid having the CD-ROM 4.0.2 installer prompt for the QuickTime 1.5 disk, you should:

- 1) Perform a "Custom" install of CD-ROM Setup 4.0.2 software (which requires only the CD-ROM Setup 4.0.2 disk).
- 2) Drag the QuickTime 1.6 extension into your Extensions folder.
