Newton Connection Kit for Windows: Missing Notes (1/94)

Article Created: 11 January 1994

TOPIC ---

After I synchronize my Newton MessagePad with the Newton Connection Kit for
Windows, all of my notes are missing from my connection file, including the
window headers which say "Created, Text, Folder, and Number of Shapes."

Sometimes, when I open synchronization files that are missing notes , the
application quits with a General Protection Fault.

What causes this?

DISCUSSION --

Version 1.0 of Newton Connection Kit for Windows has a problem with
synchronizing notes. To cure this problem, upgrade to version 1.0a or later.
Your notes will now display properly.

To upgrade your Newton Connection Kit for Windows, call Newton Fullfillment at
1-800-242-3374.
