Newton OS: No Audible Beep Moving Sound Slider (1/95)

Article Created: 30 January 1995

TOPIC ---

If I have the volume level of the Newton OS at the lowest level, then I move the
volume level slider, in the Extras drawer, to another level it does not make the
corresponding audible beep.

DISCUSSION --

If you use the use the Sound section of the Prefs instead of the Volume level in
the Extras drawer, you get the audible beep.
