AudioVision Installer Disk: Software Components (8/93)

Article Created: 3 August 1993

TOPIC -----

This article lists the software files found on the AudioVision Installer disk.

DISCUSSION -----

AudioVision Installer disk contents:

- AudioVision Installer Script
- AudioVision Read Me (contains compatibility notes, will go in root)
- Installer
- QuickTime (will go into Extensions folder, not installed under 7.1)
- Sound (will go into Extensions folder, into Control Panels under 7.1)
- Video (will go into Control Panels folder)
- ~AudioVision (will go into Extensions folder)

The tilde in ~AudioVision means that it will load after most other extensions for compatibility. The tilde shouldn't be removed.
