ImageWriter II: Needs Updated Version of SimpleText (10/94)

Article Created: 19 April 1994
Article Reviewed/Updated: 13 October 1994

TOPIC ---

When I try printing a multiple page document from SimpleText 1.0 to my
ImageWriter II, it prints about a quarter of the first page and then stops. I
can print this document from other application programs, but not from
SimpleText. Why?

DISCUSSION --

SimpleText 1.0 seems to be incompatible with the ImageWriter II. In order to
print from SimpleText, use Version 1.1.1. SimpleText 1.1.1 ships with System 7.5
and is also available on online services where Apple posts software updates.
