ImageWriter LQ Sheetfeeder: Software Compatibility

```
This article last reviewed: 6 April 1989

Here is a current list of software that supports multiple bin printing with
the ImageWriter LQ:

Applications That Work With the Sheetfeeder:
----------------------------------------------
Cricket Presents      1.0
dBASE Mac             1.0
FullWrite             1.0
MacDraft
MacDraw II            1.0
MacInTax
MacProject II         1.0
Mac3D
Microsoft Word        3.02
MORE                  1.1c
PageMaker             3.0
PowerPoint            2.0
Rags to Riches
Ragtime
ReadySetGo!           4.0a
Reflex
Silicon Press
StatWorks             1.2
WordPerfect           1.0

Applications That Don't Work With the Sheetfeeder:
---------------------------------------------------
Excel                 1.5
MacWrite              5.0
Microsoft Works       1.1
WriteNow              1.7

The following applications were tested last year and, at that point, did
not support printing from multiple bins.  More current versions may support
this feature.

Applications That Probably Don't Work With the Sheetfeeder:
-----------------------------------------------------------
Accountant Inc.
