## LaserWriter IIg: How to Get the Ethernet Address

Article Created: 8 September 1992

TOPIC -----

Is there a way to obtain an Ethernet address for the LaserWriter IIg without using the LaserWriter Utility? Is the address on a sticker or printed on the logic board?

DISCUSSION -----

The only way to obtain the Ethernet address of the LaserWriter IIg is through the PostScript interpreter. It isn't printed on the logic board or a sticker.

You can use the LaserWriter Utility or the following PostScript program to get the Ethernet address of the LaserWriter IIg:

```
/Times-Roman findfont
15 scalefont
setfont
72 700 moveto
/str 20 string def
(Ethernet Address:  ) show
(%EtherTalk%) currentdevparams /EthernetAddress get str cvs show
showpage
