LaserWriter Pro 630: Changing Paper Options Using PCL (1/95)

Article Created: 24 January 1995

TOPIC ---

What are the PCL escape codes to change paper trays on the LaserWriter Pro 630 printer?

DISCUSSION --

Changing Paper Trays
====================
The HP PCL escape code sequence for selecting paper trays is:

<esc>&l#h

where <esc> = escape character
where l   = lower case L
where #   = paper tray selection below

<esc> = escape character
    l = lowercase L
    # = refer to following values below:
        0 - source current (default)
        1 - 250 sheet cassette
        2 - Multipurpose tray
        4 - 500 sheet cassette
        6 - Envelope Feeder

For example, if you wanted to use the 500 sheet cassette, you would use the following escape code:

<esc>&l4h

Changing Page Size
==================
The HP PCL escape command for selecting the page size is:

<esc>&l#A

<esc> = escape character
    l = lower case L
    # = refers to the following page sizes:

```
 2 - letter
 3 - legal
 1 - executive
26 - A4
80 - Monarch Envelope
81 - Comm. 10 Envelope
```

For example, if you wanted to print on a legal-sized page you would send:

`<esc>&l3A`
