LaserWriter Pro 810: Printing From Windows NT (10/96)

Article Created: 29 July 1994

Article Reviewed/Updated: 14 October 1996

TOPIC -----

Does the LaserWriter Pro 810 have a printer driver for Windows NT?

DISCUSSION -----

Microsoft includes a print driver for the LaserWriter Pro 810 with Windows NT 3.5, NT 3.51, and NT 4.0.

Since there is not a LaserWriter Pro 810 driver specifically designed for Windows NT 3.1 and Windows NT Adv. Server 3.1, you must choose another Apple LaserWriter from the NT printer driver menu. For example, the Apple LaserWriter IINT or Apple LaserWriter IIg selection will allow you to print to the LaserWriter Pro 810.

Windows NT can print to LaserWriter Pro 810 via IPX/SPX, TCP/IP, AppleTalk, and DEC LAT.
