LaserWriter Pro 810: PCL5 Print Environment (12/94)

Article Created: 5 December 1994

TOPIC ---

I'm having problems with the DOS/Windows compatibility of the LaserWriter Pro
810. The drivers supplied with the printer are unable to work in PCL5
environment which I require. Is there a solution to this?

DISCUSSION --

The drivers shipped with the LaserWriter 810 are PostScript only drivers. In
order to get the printer to print PCL, the Hewlett-Packard LaserJet IIP driver
should be used. It is important to note that the LaserWriter Pro 810 does NOT
support PCL5. The LaserWriter Pro 810 supports PCL4+ only. Use the corresponding
Hewlett-Packard driver to get PCL functionality, LaserJet II, IIP, or III.
