LaserWriter Pro and Select: Printing on Transparencies (5/93)

Article Created: 14 May 1993

TOPIC ---

There does not seem to be any information on the LaserWriter Pro or Select
series printers in regards to printing on transparencies. Please advise.

DISCUSSION --

Engineering does not recommend any particular brand or thickness for
printing on the LaserWriter Pro and/or the Select series of printers.
Make sure to use transparencies that are made for use with laser
printers and you should have no problem.
