Personal LaserWriter LS: Minimum Print Margins in Legal Size

Article Created: 7 December 1992

Article Change History

07/01/93 - Updated

- Added requirements needed to achieve minimum margins

05/13/93 - Updated

- To describe how to achieve minimum margins

TOPIC -----

What are the minimum size margins one can obtain with a Personal LaserWriter LS using legal size paper and "Larger Print Area" ?

DISCUSSION -----

Here are the minimum margins achievable on a Personal LaserWriter LS using Legal sized paper:

Minimum top and bottom margins for Legal: .75 (3/4")

Minimum left and right margins for Legal: .25 (1/4")

Requirements:

.5MB or 1MB RAM

Personal LaserWriter 7.2 driver

Larger Print Area ENABLED in Page Setup

The Personal LaserWriter LS drivers (earlier than version 7.2) were designed for 1-inch margins to maintain compatibility with the Personal LaserWriter SC. Customers who upgrade the Personal LaserWriter SC to the Personal LaserWriter LS will not encounter margin issues.

The earlier Personal Laserwriter LS driver had these minimum margins with Legal paper:

- Top And Bottom .750 Inches

- Left And Right .875 Inches

Note: The Personal LaserWriter LS 1MB RAM upgrade DOES NOT provide minimum TOP and BOTTOM margins of .25 inches.
